

Delightful Feast

A great variety of affordable and tasty food options makes dining out very popular. Taiwanese and international cuisines can be found in shopping malls and Michelin restaurants, or even vendors in every corner.

Tech Economy of the Future

Taipei is at the center of Taiwan's rapid economic development. As one of the world's leading producers of information and communication technology products, the city is also home to some of the largest tech companies in the world, including ASUS, MSI, Gigabyte and Acer.

From Taipei to the World

Taipei is a multifaceted city with its rich international and multicultural environment welcoming more than 10 million global travelers each year. The city is embedded with the unique charm of diversity, attractiveness and friendliness.

Gateway to Asia

The city's public transportation is known for its convenient, reliable and friendly services. Travelling around is easy since Taipei is located in the heart of Asia and is served by 2 airports. Visit Hong Kong, Shanghai or Okinawa in the blink of an eye; fly to Manila, Seoul, Tokyo or Hanoi in less than 3 hours!

NTU Plus Academy Short-Term Programs

Plus Your Horizons!

Welcome to NTU

National Taiwan University

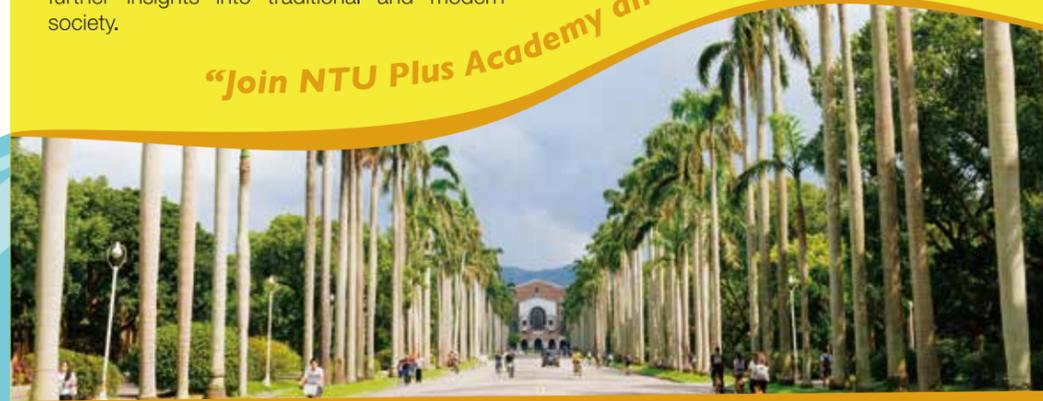

Located in the heart of Taipei, National Taiwan University (NTU) is Taiwan's most prestigious university. With its rich history and diverse culture, NTU is the most sought out university in all of Taiwan and has played a leading role in education and research since 1928. NTU offers a wide variety of opportunities for international students to study in the academic fields across 11 colleges, 56 departments and 134 graduate institutes.

Why NTU Plus Academy?

NTU Plus Academy, managed and supported by Office of International Affairs (OIA), integrates resources at NTU and offers more than 20 topic-based short-term programs for international students. Each year, NTU welcomes over 500 international students from prestigious universities all over the world. In addition to courses, students experience the local customs, the rich natural ecology and gain further insights into traditional and modern society.

"Join NTU Plus Academy and plus your horizons!"

Imperial College London
UK

Research & Cultural Programs

To take part in a world-class research team, students will improve research skills and knowledge during this intensive 4-to-6-week program. Upon completion, students will earn 3-5 credits. For the updated faculty list and the application information, please refer to the list below and our website.

Fields of Research

Liberal Arts
Social Sciences
Engineering
Medicine
Science
Life Science
Management
Public Health
Bioresources and Agriculture
Electrical Engineering & Computer Science

"Historical background and amusing background stories of many pieces was a good primer for visiting the National Palace Museum. I would probably not have enjoyed the museum as much if we hadn't had the Exploring Taiwan lectures beforehand."

ALISHA HALL
University of Mannheim
Germany

Field Trips & Cultural Activities

Through a series of field trips and cultural activities, students are expected to gain in-depth knowledge about different environmental, historical or sociocultural facets of Taiwan. Students will understand how Taiwan's past has shaped its current state, and the subtle ways Taiwan fuses foreign cultures with its own.

Supportive Staff & Student Advisors

All programs at NTU Plus Academy have student advisors who are carefully selected to assist students to enhance their study abroad experience since we value student-to-student engagement. Our dedicated and friendly staff will collaborate with student advisors to help you throughout the program.

Application

Our online application is available at:
<https://oia.ntu.edu.tw/short-term-programs>

Application period
